Issue Detail

Issue Description

Description
Preconditions:
1) A link to the LuOle online store website is open in the Chrome browser https://5e903f27edb36.site123.me
2) An unregistered user is on the КОНТАКТИ page.
3) DevTools is open on the КОНТАКТИ page, and the list of requests is cleared in the Network tab.
4) There is access to the business email address: s-t-olga@yopmail.com. The Inbox tab is open.

Steps to reproduce
1.Fill in all fields of the Email Us pane with valid data:
Name: Olga
Phone: +380112223344
Email Address: sopilka@gmail.com
Message text: Hello. I would like to ask for information about your product.
2.Click the ЗВ'ЯЖІТЬСЯ З НАМИ button.
3.Navigate to DevTools → Network tab, locate the request with the form data (in the Payload tab, verify that the data was transmitted).
4.Open the mailbox s-t-olga@yopmail.com, navigate to the Inbox tab.
5.Verify that the email sent via the form has arrived.
Expected result:
The email with the data entered in the form should arrive at the business address s-t-olga@yopmail.com after successful submission.
Actual result:
The email did not arrive in the business email inbox after the form was successfully submitted.
The form submission was sent at 19:12:51 (according to Network tab timestamp). The business mailbox was checked at 19:21:02 — no email received.

Issue Description

Description
Test Run: Main functionality of Sending Email pane
Release: R 0.1
Preconditions:
1.Link to the LuOle Online Shop website opened: https://5e903f27edb36.site123.me
2.The Email Us pane was filled in with valid data and successfully submitted on the КОНТАКТИ page:Name: Olga
Phone: +380112223344
Email Address: sopilka@gmail.com
Message text: Hello. I would like to ask for information about your product.
3.The business email address are available: s-t-olga@yopmail.com

Steps to reproduce
1.Submit the contact form with valid data (Name, Phone, Email, Message).
2.Open the mailbox of the business email address.
3.Navigate to the Inbox folder and check for the received email.
4.Open the email and verify its content.
Expected result:
The email is received on the business address and contains all form fields and their values:
Name: Olga
Phone: +380112223344
Email Address: sopilka@gmail.com
Message text: Hello. I would like to ask for information about your product.
Actual result:
The email was not received on the business address, making it impossible to verify the email body content.

Description

Test Run: Validation of required fields in the Email Us pane

Release: R 0.1

Preconditions:

1) Link to the LuOle Online Shop website opened https://5e903f27edb36.site123.me

2) The user is on the "КОНТАКТИ" page.

3) The Email Us pane is displayed and visible.

4) All fields are empty.

Steps to reproduce

1.Enter 101 chars in the Name text field
(OooooooooollIIIIIIIIIIgggggggggggaaaaaaaaaaa@@@@@@@@@@ooooooooooolllIIIIIIIIgggggggggggaaaaaaaaaaa@@@@@@@@@@o).

2.Move the focus outside the field (click on another field) to check the value.

Expected Result:

1.The system verifies the maximum length of characters entered in the Name field.

2.If the upper limit of the boundary values is exceeded, the system displays an error message.

Actual Result:

The system does not display any error message and allows entering more than 100 characters.
https://docs.google.com/spreadsheets/d/1dU7m5ov0hdzO0CfSAI0jh0EGkANwHO7NmfCrHSNhna0/edit?usp=sharing

D0005 - Error message is not displayed in the Name field when invalid value is entered

https://5e903f27edb36.site123.me
2) The user is on the "КОНТАКТИ" page.
3) The Email Us pane is displayed and visible.
4) An invalid value has been entered in the Name text field (1 character 'O').

Steps to reproduce
1.Check the text of the message for errors in the Name text field.
Expected Result:
1.The system checks the length of characters entered in the Name field.
2.If the limits are exceeded, the system displays an error message.
3.Error message text: «Поле має містити від 2 до 100 символів».
Actual Result:
The system does not display any error message. The text of the validation message is missing.

2) An unregistered user is on the "КОНТАКТИ" page.

3) The Email Us pane is displayed and visible.

4) All fields in the form must be empty.

Steps to reproduce

1.Enter an email address with 1 char before the "@" symbol (s@gmail.com).

2. Move the focus outside the field (click on another field) to check the value.

Expected Result:

The system should display a error message because the part of the email before "@" must contain more than 1 character, according to requirements.

Actual Result:

The system does not display an error message.

The entered value is accepted as valid.

2) An unregistered user is on the "КОНТАКТИ" page.
3) The Email Us pane is displayed and visible.
4) All fields in the form must be empty.

Steps to reproduce
1.Use underscore in the address before the "@" symbol (so_pilka@gmail.com).
2.Move the focus outside the field (click on another field) to check the value.
Expected Result:
The system should display a error message because the underscore "_" is not allowed in the local part of the email address before "@" (according to the requirements).
Actual Result:
The system accepts an email address with an underscore before "@" without displaying an error message.

2) An unregistered user is on the "КОНТАКТИ" page.
3) The Email Us pane is displayed and visible.
4) All fields in the form are empty.

Steps to reproduce
1.Enter an email address in the following format: sopilka@gmail..com.
2.Move the focus outside the field (click on another field) to check the value.
Expected Result:
The system should reject addresses with a double dot in the domain and display a message about an invalid email format. According to the requirements, the domain part of an email address can only contain Latin letters and numbers (after the "@" symbol).
Actual Result:
The system accepts addresses with a double dot in the domain part (gmail..com).
The error message does not appear.

1) Link to the LuOle Online Shop website opened on the "КОНТАКТИ" page.
2) The Email Us pane is displayed and visible.
3) The Email field is filled with a valid value.

Steps to reproduce
1.Enter a invalid name (O) in the Name text field.
2.Move the focus outside the field (click on another field) to check the value.
3.Check if an error message appears.
Expected Result:
The test is designed to check the display of an error message (field validation has already been tested in another test). After entering an invalid value, the system should dynamically display an error message below the Name field.
Actual Result:
The error message does not appear.
The system accepts the entered value as valid.

Test Run: Validation of optional fields in the Email Us pane
Release: R 0.1
Preconditions:
1) Link to the LuOle Online Shop website opened on the "КОНТАКТИ" page https://5e903f27edb36.site123.me
2) The Email Us pane is displayed and visible.

Steps to reproduce
1.Enter the "+" sign not at the beginning of the number (38+0112223344) in the Phone text field.
2. Move the focus outside the field (click on another field) to check the value.
Expected Result:
A validation message should appear indicating an invalid phone number format. The validation rule for phone format requires "+" only at the beginning of the number.
Actual Result:
The system accepts the entered value without displaying any validation message.

1) Link to the LuOle Online Shop website opened on the "КОНТАКТИ" page:https://5e903f27edb36.site123.me
2) The Email Us pane is displayed and visible.
3) The form fields are filled with valid data: Name: Olga, Email address: sopilka@gmail.com.

Steps to reproduce
1.Click the "ЗВ'ЯЖІТЬСЯ З НАМИ" button.
2.Check the text of the success message displayed in the modal window.
3.Check the name of the confirmation button.
Expected Result:
Should show a modal window with an "ДОБРЕ" button and a message like the following:
"Надіслано!
Дякуємо, що зв'язалися з нами. Ми отримали ваше повідомлення і незабаром відповімо вам."
The name of the ДОБРЕ button consists of uppercase letters.
Actual Result:
Modal window displays message:
"Надіслано!
Дякуємо, що звернулися до нас. Ми отримали ваше повідомлення та найближчим часом відповімо вам."
The button is named "ГАРАЗД" instead of "ДОБРЕ".
